

Sign Placement

There will be two, possibly three, types of signs for this campaign. If you have the ability to give permission for the placement of any of these signs on your residential, business, agricultural or open space property please indicate by emailing us at info@fredstrong.com with permission for placement and the location.

For residential and business windows: yard signs (approximately 2' X 2')

For other properties signs of 4' X 6' or 4' X 8'.
